TERMS AND CONDITIONS

Under Mitsubishi Diamond Advantage Capped Price Servicing Program, eligible vehicles are entitled to receive up to the first four standard scheduled Diamond Advantage Genuine Services (eight Regular Services for Ralliart and Lancer Evolution vehicles) up to and including the 48 month/60,000km service carried out by a Mitsubishi Dealer for no more than the applicable Vehicle Service Cap per service.

Where can I have Mitsubishi Diamond Advantage Capped Price Servicing carried out?

Eligible vehicles can only be serviced under the program at authorised Mitsubishi Dealers. Ralliart and Lancer Evolution vehicles can only be serviced under the program at Ralliart and Lancer Evolution authorised Mitsubishi Dealers respectively.

What is covered (in/under/by) the Mitsubishi Diamond Advantage Capped Price Servicing?

Under the Program, eligible vehicles are entitled to receive up to the first four Regular Services (eight Regular Services for Ralliart and Lancer Evolution vehicles) by distance or time (whichever occurs first) for no more than the applicable Vehicle Service Cap per service. The final eligible service will be either the 48 month or 60,000km service (whichever occurs first).

The Program covers all items specified under the Regular Service Tables for each vehicle type detailed in the Service and Warranty Customer Information booklet, including parts, labour, oils and fluids, workshop supplies and any applicable environmental or waste oil disposal charges.

What is not covered under the Program?

Additional service/maintenance items which are not covered within the Regular Services or the Program include (but are not limited to):

- Those items identified as requiring more frequent attention depending on operating conditions (as described in the Service and Warranty Customer Information Booklet).
- LPG additional maintenance items.
- Normal wear and tear and consumable items requiring periodic maintenance (e.g. fuses, brake pads, wiper blades, batteries, tyres, wheel alignment adjustment etc.).
- Air conditioner pollen filter replacement.
- Fluids, additives and treatments not specified in the Regular Service Tables.
- Accident damage to any body, chassis or driveline components.
- Adjustments not specified in the Regular Service Tables.
- Additional maintenance and repairs which may be recommended by a Mitsubishi Dealer to suit your individual driving characteristics.

If any additional service/maintenance work is required, you will be informed prior to that work being undertaken that the additional service/maintenance work is not covered under the Program and what the additional cost (if any) will be for performing that additional service/maintenance work.

When does the Mitsubishi Diamond Advantage Capped Price Servicing become effective?

From the original warranty start date recorded in the Service and Warranty Customer Information booklet for each eligible vehicle.

What is the term of coverage of Mitsubishi Diamond Advantage Capped Price Servicing?

An eligible vehicle's participation in the Program will expire upon any of the following three conditions being satisfied:

- The performance or expiry of all Regular Services covered under the program.
- The expiry of 4 years from the original warranty start date.
- 60,000km being travelled.

When can a Regular Service be carried out?

Service intervals are for a given period of time or distance (12 months or 15,000km, whichever occurs first except for Ralliart and Lancer Evolution vehicles which are 6 months or 7,500km). Even if a vehicle isn't driven far enough to cover the nominated distance between service intervals, Mitsubishi vehicles should still be serviced according to the time period shown on the Regular Service Tables.

Each Regular Service can be claimed within 7,500km either side of the specified interval (3,750km in the case of Ralliart and Lancer Evolution vehicles). If the distance travelled is low, services should be undertaken according to the time intervals. A specified time interval service can be claimed 6 months either side of the specified time (3 months in the case of Ralliart and Lancer Evolution vehicles).

Note: Claims cannot be made for both a specified kilometres service and the corresponding time interval service separately.

Is the Mitsubishi Diamond Advantage Capped Price Servicing program transferrable?

Entitlements are transferrable with ownership and remain with the vehicle until they expire pursuant to the terms of the Program. Entitlements cannot be transferred to any other vehicle.

Who is eligible for Diamond Advantage Capped Price Servicing?

Retail customer vehicles are eligible under the program. Government and Rental vehicle customers are not eligible and additional exclusions may apply. Contact your Mitsubishi Dealer to confirm eligibility.

Mitsubishi Motors Australia Limited (MMAL) may add or remove vehicles from the Program, or vary terms of the Program, from time to time without notice.

Ask your dealer for full details and conditions.
